

TTY Jeopardy

This game is played like Jeopardy. This works best as an overhead transparency or transcribed onto a Dry-Erase Board.

<i>Recognizing TTY calls</i>	<i>Disability Awareness</i>	<i>Terminology</i>	<i>TTY Protocol</i>	<i>TTY Languages</i>	<i>Common Abbreviations</i>	<i>English to ASL w/Protocol</i>
indicated when there is no noise on the phone line	federal law requiring TTY access to emergency communications centers	the type of TTY communications in which the phone line is connected to the TTY	used to indicate that it is the caller's turn to type	uses common sentence structure but may use abbreviations	the three commonly used terms to indicate a text-phone device	what is your phone number?
indicated when the other TTY is sending signals	federal agency responsible for oversight of TTY accessibility	the rubber cups that hold the telephone headset	used to indicate a question to which you want a response	based on concepts rather than complete sentences and its structure is different from English	term used to ask an ASL caller if person is having "difficulty breathing"	what is your problem?
equipment in the communications center which indicates there is a TTY call	the minimum time requirement for updated TTY training	a person who is deaf, hearing impaired, or speech impaired	used to indicate a typing error	word used to indicate a patient's status of consciousness	word used to indicate the need for medical assistance	what is your name?
special feature on caller's TTY which indicates they are using a TTY	the "rule of thumb" for the minimum number of required TTYS in an emergency communications center	the loss of hearing before the development of language skills	used to indicate that the call taker is ready to end the call	used by caller to indicate that they wish to speak their part of the conversation	word used to indicate the need for a law enforcement response	is your father conscious?
A specially trained third party who assists TTY callers	the minimum schedule for testing TTY equipment	indicated by the term "red" by some ASL users	used to officially conclude the TTY conversation	used by caller to indicate that they wish to type their part of the conversation	word used to indicate a burglary	where do you live?

Daily Bonus

Two requirements for compliance with the ADA for emergency communications centers

Questions (What is/are....)

<i>Recognizing the TTY call</i>	<i>Disability Awareness</i>	<i>Terminology</i>	<i>TTY Protocol</i>	<i>TTY Languages</i>	<i>Common Abbreviations</i>	<i>English to ASL w/Protocol</i>
